Message from your Council

It is an honour and a privilege to be elected by the community to represent this great and diverse municipality. Our aim is to make Cardinia Shire the best possible place to live, work, raise a family and do business.

As we work with our community to build a sustainable Shire for present and future generations, Council understands the importance of managing its financial responsibilities while meeting our identified challenges. Balancing our growth and maintaining our diverse rural communities is a major focus.

Developing Cardinia Shire

We support programs and activities that promote, develop and improve the wellbeing of our growing communities.

Council continually advocates to Australian and Victorian governments and other agencies. In the life of this plan we will focus on securing funding and increasing access to improved services like roads, transport, technology and education. Efforts will also be made to expand community programs and events as well as sporting and artistic activities. This will help and inspire residents and people who have a connection with our Shire.

Working closely with Council's senior management team, all residents, businesses, community groups and other levels of government is important as we continue to plan, deliver and maintain the necessary infrastructure and transport connections in a sustainable way.

Protecting and enhancing our environment

Council will work closely with our community and stakeholders to carefully plan and manage our growth to ensure we cater for present and future generations of residents while also considering the natural and built environment.

Initiatives to reduce energy consumption, greenhouse gas emissions and waste, while improving sustainable water practices and enhancing local biodiversity are among the priorities of this plan.

Connecting our communities

Council will foster and encourage a sense of community and belonging across Cardinia Shire's 30 townships. There will be a focus on partnership building and linking people. This will be achieved through engagement and effective communication as well as advocacy and support for local services, transport, education and employment.

Securing our economy

Council will continue to create, support and advocate for economic development opportunities that will bring investment to Cardinia Shire.

We recognise that business growth and investment are vital to building sustainable communities and we will continue to support business and tourism to foster local employment.

Leading the way through our governance

Council will govern in a transparent and accountable way with a high value on community engagement that will ensure our residents help determine the direction of Council's activities. Being financially sustainable is a high priority for Council. This will influence how effectively we support our communities now and into the future.

Council values and recognises our role as leaders in the community. As your representatives, we will be strong advocates to Australian and Victorian governments and will continue to lobby for action on important local issues.

An exciting future

The future is more than growth, more than change; it is about creating a quality of life with great expectations of fulfilment and economic stability for our families and future generations. We will continue to work with – and for – the benefit of all our communities to ensure Cardinia Shire is healthy, safe and connected. We hope you will join us on this journey.

Our vision

Cardinia Shire will be developed in a planned manner to enable present and future generations to live healthy and productive lives and to enjoy the richness of the diverse and distinctive characteristics of the Shire.

Our commitment

Council will provide leadership, including community engagement with stakeholders, to ensure the long-term sustainability of our communities and townships. We will be mindful of the social, environmental and economic impacts of our decisions and ensure future generations benefit from our decisions. We will practise good governance and meet recognised standards of excellence. Council will work diligently to achieve excellence in every aspect of our activities.

Key challenges

Council has identified the following major challenges for the coming years:

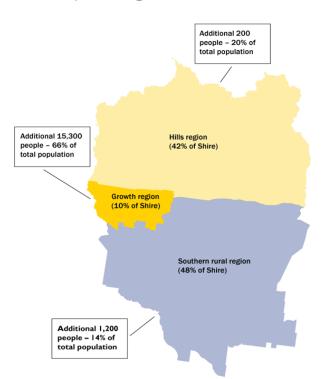

- managing population growth
- managing the natural and built environment, including climate change
- developing a prosperous local economy and creating employment
- reducing the impact of family violence on our community
- long-term financial sustainability
- supporting and increasing agricultural productivity
- timely delivery of infrastructure, transport options and services
- encouraging residents to improve their health and wellbeing
- · encouraging community engagement in Council's decision making

Managing population growth

Cardinia Shire is experiencing significant population growth. Our population is predicted to increase by 18 per cent (17,300 people) to 111,600 people by 2020. Our population is located in three distinct areas: the hills, the growth area and southern rural sub-regions.

Over this time the population in our three subregions will change at differing rates. Our growth area forms part of the Casey-Cardinia growth corridor which is one of five metropolitan growth areas. By 2020, Cardinia Shire's growth area specifically will increase by about 15,300 people (an increase of 26%) and represent 66 per cent of our population. In the same period, the hills region will increase by about 200 people (1%) and represent 20 per cent of our people. The southern rural region will increase by about 1,200 people (9%) to around 14 per cent of the total population. Council's major challenge is to balance the need for services, facilities and other infrastructure for the growth area with the needs of our existing rural communities.

Population growth 2016-20

Managing the natural and built environment, including climate change

The quality of our natural and built environments affects our communities. They must be developed and managed in a way that contributes to the health and safety of present and future generations.

Existing natural environmental values such as biodiversity and waterways need to be protected and improved.

Planning for built environments must achieve sustainable outcomes, particularly minimising the use of energy and water as well as enhancing the broader natural environment.

Understanding and adapting to climate change impacts are challenges both now and into the future. The Australian Government's Climate Commission 2013 report 'The angry summer' highlights the link between climate change and the impacts of extreme weather on people, property, communities and the environment. The report outlines the consequences of failing to address these changes. Cardinia Shire has experienced an increase in flood, storm, fire and heatwave incidents in recent years. Climate change is affecting our agricultural areas, community health, parks and recreational facilities.

We must work with our community and relevant agencies to prepare ourselves to respond against these threats and mitigate the climate change risks.

Developing a prosperous local economy and creating employment

A strong and diverse economy is important to ensuring financially stable, independent and proud communities. As our population continues to grow, demand for local employment also increases. In 2012, approximately 70 per cent of our community travelled outside the Shire to work. Council continues to lobby other levels of government and seek to attract a variety of services and industries. We want to ensure employment options for our people who want and need to work locally. The designated employment precinct between Officer and Pakenham is being planned and developed to provide jobs for up to 50,000 people.

Reducing the impact of family violence on our community

Our community experiences one of the highest reported incidents of family violence in Victoria with around 4 serious incidents per day occurring.

The impact of greater awareness, increased family support packages, respect messages in the media and pro-arrest and pro-remand approaches by local police has contributed to a reduction of recidivism for repeat offenders. Child and Family Services operating in the Shire continues to be at capacity as families seek support to deal with issues and many of these requests are not registered with the police, which may suggest that awareness campaigns are influencing people to seek support early.

Addressing family violence requires this whole of community approach in both prevention and directly supporting those residents impacted. Council is focussing its activities on preventing family violence in Cardinia Shire. We will achieve this by working in partnership with family Life and our community and other organisations to challenge current attitudes and behaviours; reduce gender inequity; strengthen social inclusion and build both respect and support for each other. This collective impact approach has been shown to reduce the occurrence of family violence. The initiative is called 'Together We Can', and asks the community to align all efforts to the common agenda to 'to stop, prevent and end family violence'.

Long-term financial sustainability

Council governs for both the present and future. Financial decisions today must consider the long-term sustainability of the Shire. All planning must balance the variety of growing and changing needs of our communities in a financially responsible way. These decisions must also achieve a fair balance of costs and benefits between present and future generations.

Supporting and increasing agricultural productivity

With the majority of Cardinia Shire's land being rural, the hills and southern rural regions are important to the economy at a local and national level.

Council needs to protect and strengthen these areas, and recognises that agriculture is facing pressure from the changing world economy, changing climate and other environmental conditions, as well as the demands of development and the ageing of our farming community. Council will take up every opportunity to enhance agricultural production particularly in the southern rural region (Bunyip Food Belt) by using recycled water from the Eastern Treatment Plant at Carrum.

Timely delivery of infrastructure, transport options and services

As our population grows, Council is aware of the importance in providing necessary infrastructure, transport options and family services.

We recognise that transport mobility is socially, environmentally and economically important. With a growing population, accessing education, employment, recreation, business and community services and participating in social activities requires efficient, safe and connected transport options.

New infrastructure and services need to be funded and provided by Council and relevant agencies in a timely manner to support development. We are mindful that this needs to be balanced with the maintenance and renewal of existing infrastructure and facilities.

Encouraging residents to improve their health and wellbeing

Locally and nationally, we are experiencing increasing negative trends in the overall health of the population. Reversing these trends will provide positive benefits for individuals and families. As a society, we will also experience the financial benefits through increased productivity and reduced demand on health and associated services. Council plays an important role through partnerships with other levels of government and direct service providers in raising awareness, changing behaviours and providing a variety of recreational and healthy lifestyle opportunities for our residents.

Encouraging community engagement in Council's decision making

A key focus for Council is to reflect the views of its diverse communities in key decision making processes. Our community is changing both geographically and culturally. We are committed to strengthening our engagement with the community to provide valuable input that informs our decisions.

Delivering the plan

Council will deliver this plan through a four-year action plan which covers five key strategic objectives:

- Our people
- Our community
- Our environment
- Our economy
- Our governance

Council has prepared this plan based on resident and business involvement and current economic conditions. It will be our guiding document for the next four years and will be reviewed annually to ensure the changing economic circumstances and other factors affecting our communities are reflected.

Measuring our success

We will measure our progress in achieving our plan by:

- monitoring the financial performance of the organisation against the annual budget and longer term financial outlooks
- reporting on progress toward achieving the outcomes contained in this plan.
- measuring how satisfied our community is with our performance.

Our annual and quarterly performance reports will inform the community of our progress. Where commitments are not achieved, we will provide the reasons why in clear and transparent reporting.

Key success indicators

By monitoring key indicators, we can gauge our performance in delivering outcomes in this plan. Our quarterly and annual reports will detail our performance on these indicators.

1 Our people

We support a variety of needs and lifestyles through programs and activities that promote and develop the wellbeing of Cardinia Shire's people.

What we want to achieve and how we will achieve it

1.1 Access to a variety of services for all
