

## SPECIFICATION FOR PARTIAL GRAVEL ROAD CONSTRUCTION WORKS

The following is intended as a general guide for the construction of gravel road pavements within the Shire of Cardinia.

1. Typical Cross section

2. Clearing to be as directed but should allow a minimum cleared width of 1.0 metre outside the batter lines.
3. The centre line of the proposed road should coincide with the centre line of the existing road reserve unless otherwise directed.
4. Drainage culverts to be installed as directed, complete with concrete endwalls and catch pits.
5. Guide posts to be erected at culvert ends and other locations as directed.
6. All debris from the construction works to be burnt or removed from the area and the road reserve left in a neat and tidy condition.
7. Road or street name sign to be erected to Council standard.
8. Council's Representative to be notified three (3) days prior to work commencing on site.
9. Drainage easements required for construction works to be shown on a plan of works to be carried out.
10. Planning permit required for any tree removal.
