Works Manager responsibilities

Principles applying to Infrastructure Managers and Works Managers:

1. An infrastructure manager or a works manager must have regard to the principles specified in this clause in the provision of non-road infrastructure on roads.
2. The primary purpose of a road is use by members of the public and authorised users must be managed as far as is reasonably practicable in such a way as to minimise any adverse impacts on the primary purpose.
3. Without limiting the generality of sub-clause (2), authorised uses must be managed so as to:
 - a. minimise any damage to roads and road infrastructure; ensure that works necessary for the provision of non-road infrastructure are conducted as quickly as practicable,
 - b. minimise any disruption to road users,
 - c. minimise any risk to the safety and property of road users and the public generally,
 - d. facilitate the design and installation of infrastructure which minimises any risk to the safety of road users,
 - e. ensure that the road and any other infrastructure is reinstated as nearly as practicable to the condition existing before the works necessary for the provision of the non-road infrastructure were conducted,
 - f. protect and preserve existing significant roadside vegetation and sites of biological significance within the road reserve.
