NOTES

1. This form must be used for all transfers by the registered proprietor of an estate in fee simple other than
 - (a) transfers by direction
 - (b) transfers creating or reserving easements
 - (c) transfers containing a restrictive covenant or a covenant created pursuant to statute
 - (d) transfers of mortgages charges or leases or leasehold estates
 - (e) transfers of other than the full interest of the transferor for which the appropriate form must be used.
2. Transfers may be lodged as an original only and must be typed or completed in ink.
3. All signatures must be in ink.
4. If there is insufficient space in any panel to accommodate the required information use the above space or an annexure sheet (Form A1). Insert only the words "See Annexure A" (or as the case may be) in the appropriate panel and enter the information above or on the annexure sheet under the appropriate heading.

Multiple annexures may appear on the same annexure sheet but each must be correctly headed.

All annexure sheets should be properly identified and signed by the parties and securely attached to the instrument.
5. Volume and folio references must be given. If the whole of the land in a title is to be transferred no other description should be used. If the transfer affects part only of the land in a title the lot and plan number or Crown description should also be given. Any necessary diagram should be endorsed above or on an annexure sheet (Form A1).
6. Set out the amount (in figures) on the nature of the consideration.

In a transfer on sale of land subject to a mortgage it should be clearly shown whether or not the amount owing under the mortgage is included in the consideration e.g. \$ which includes the amount owing under mortgage No.
7. Insert full name. Address is not required.
8. Insert full name and address. If two or more transferees state whether as joint tenants or tenants in common. If tenants in common specify shares.
9. If an executing party is a natural person execution should read "Signed by the transferor (transferee) in the presence of". The witness must be an independent person. If an executing party is a body corporate execution should conform to any prescribed formalities relating to the affixing of the common seal.

Designated Bushfire Prone Areas

This property is in a designated bushfire prone area. Special bushfire construction requirements apply to the part of the property mapped as a designated bushfire prone area (BPA). Planning provisions may apply.

Where part of the property is mapped as BPA, if no part of the building envelope or footprint falls within the BPA area, the BPA construction requirements do not apply.

Note: the relevant building surveyor determines the need for compliance with the bushfire construction requirements.

Designated BPA are determined by the Minister for Planning following a detailed review process. The Building Regulations 2018, through adoption of the Building Code of Australia, apply bushfire protection standards for building works in designated BPA.

Designated BPA maps can be viewed on VicPlan at <https://mapshare.vic.gov.au/vicplan/> or at the relevant local council.

Create a BPA definition plan in [VicPlan](#) to measure the BPA.

Information for lot owners building in the BPA is available at <https://www.planning.vic.gov.au>.

Further information about the building control system and building in bushfire prone areas can be found on the Victorian Building Authority website <https://www.vba.vic.gov.au>. Copies of the Building Act and Building Regulations are available from <http://www.legislation.vic.gov.au>. For Planning Scheme Provisions in bushfire areas visit <https://www.planning.vic.gov.au>.

Native Vegetation

Native plants that are indigenous to the region and important for biodiversity might be present on this property. This could include trees, shrubs, herbs, grasses or aquatic plants. There are a range of regulations that may apply including need to obtain a planning permit under Clause 52.17 of the local planning scheme. For more information see [Native Vegetation \(Clause 52.17\)](#) with local variations in [Native Vegetation \(Clause 52.17\) Schedule](#)

To help identify native vegetation on this property and the application of Clause 52.17 please visit the Native Vegetation Information Management system <https://nvim.delwp.vic.gov.au/> and [Native vegetation \(environment.vic.gov.au\)](#) or please contact your relevant council.

Planning Permit Application
Construction of an Outbuilding associated with a Dwelling

Dear Planning Department,

We refer to the above matter and make application for a planning permit to construct a shed under the requirements of the Zone and also the Bushfire Management Overlay.

The shed is 240 square metres in area, Colorbond construction, located to the rear of the dwelling and setback at least 29 metres from any property boundary.

The shed triggers a planning permit under the Rural Conservation Zone as the construction of the shed is associated with a Section 2 use and the shed exceeds 100 square metres in area. No earthworks are included in this application or are required.

The site is also located within a Bushfire Management Overlay and given the shed exceeds 100 square metres in area, a planning permit is required for the shed under this overlay.

The site is also located within the Environmental Significance Overlay and given the shed exceeds 120 square metres in area and the shed exceeds a height of 4 metres, a planning permit is required for the shed under this overlay.

The application is accompanied by an application form, certificate of title, plans, VicPlan planning property report and Bushfire Management Plan. Consent from Aus Net to build within the easement is also provided.

The location for the new shed is shown below in photographs and an aerial photograph is provided in the appendix.

This copied document is made available for the purpose of the planning process as set out in the Planning and Environment Act 1987. The information must not be used for any other purpose. By taking a copy of this document you acknowledge and agree that you will only use the document for the purpose specified above and that any dissemination, distribution or copying of this document is strictly prohibited.

The proposed shed is considered to be reasonable and appropriate having regard to the relevant considerations of the planning scheme which in this case are the purpose, objectives and decision guidelines of the Rural Conservation Zone, the Environmental Significance Overlay and the Bushfire Management Overlay. Our reasons are as follows:

- The buildings and works are associated with the long standing use of the land for a dwelling and the shed itself will be used for storage of personal property (i.e. the items shown in the photos).
- No vegetation is to be removed from the land to facilitate the construction of the shed.
- Sheds of this size are quite common in the immediate area, such as at 36 and 40 Toogood Court to the south of the site.
- The maximum overall height of the shed is 5.3 metres which is considered to be modest, similar to the height of most dwellings and well below the prevailing canopy tree height.
- The siting of the shed does not impact on any significant views, as sought by the objectives of the Environmental Significance Overlay.
- The shed is well setback from the street and will be partially concealed from view by the existing dwelling, so it will not detract from the presentation of the property when viewed from the street.
- The shed is well setback from adjoining properties, so it will not impact on the amenity of the adjoining properties.
- The shed will include a 10m defendable space as required by the BMO where vegetation (including any grass) will be managed.
- Approval has been granted by Aus Net for the construction of the shed within the easement.
- The shed will be a muted color (i.e. monolith) which will blend into the environment, thereby ensuring it is visually subservient within the landscape.

Planning Permit Application – T250512 PA
Construction of an Outbuilding associated with a Dwelling

Dear 

We refer to the above matter and your request for further information. In response, we attach receipt of payment of the application fee addressing point 1 and amended plans addressing points 2 and 3.

In response to point 4, we refer back to our submission which included the following:

The proposed shed is considered to be reasonable and appropriate having regard to the relevant considerations of the planning scheme which in this case are the purpose, objectives and decision guidelines of the Rural Conservation Zone, the Environmental Significance Overlay and the Bushfire Management Overlay. Our reasons are as follows:

- The buildings and works are associated with the long standing use of the land for a dwelling and the shed itself will be used for storage of personal property (i.e. the items shown in the photos).
- No vegetation is to be removed from the land to facilitate the construction of the shed.
- Sheds of this size are quite common in the immediate area, such as at 36 and 40 Toogood Court to the south of the site.
- The maximum overall height of the shed is 5.3 metres which is considered to be modest, similar to the height of most dwellings and well below the prevailing canopy tree height.
- The siting of the shed does not impact on any significant views, as sought by the objectives of the Environmental Significance Overlay.
- The shed is well setback from the street and will be partially concealed from view by the existing dwelling, so it will not detract from the presentation of the property when viewed from the street.
- The shed is well setback from adjoining properties, so it will not impact on the amenity of the adjoining properties.
- The shed will include a 10m defendable space as required by the BMO where vegetation (including any grass) will be managed.
- Approval has been granted by Aus Net for the construction of the shed within the easement.
- The shed will be a muted color (i.e. monolith) which will blend into the environment, thereby ensuring it is visually subservient within the landscape.
