

Landscape Standards Report

Responsible GM: Peter Benazic

Author: Yasmin Daud and Stephen Mannering

Recommendation(s)

That Council support current maintenance standards, they meet Council's responsibilities and provide a balance between the community's needs and expectations and Council's ability to fund these maintenance programs.

Attachments

- 1. Cardinia Shire Council Park Scape Report 2017 [6.1.12.1 58 pages]
- 2. Landscape Standards Report [6.1.12.2 8 pages]

Executive Summary

This report was prepared to detail and assess current open space maintenace standards across the shire, the level of maintenance undertaken at each reserve and the regularity of visits.

Council's open space assets are maintained under six service levels. The list below shows the servicing levels per annum. These levels are adjusted in line with the seasons, e.g. During late autumn/ winter under the "Parkland" service, a site will be visited on a four-weekly basis. During spring/ summer however, this would move to the same frequency as the premium "Urban" level on a two-weekly rotation

Service Level	Garden Bed	Mowing	No of locations
- Urban	26	26	32
- Parkland	15	18	745
- Streetscape Premium	12	12	17
- Streetscape	10	10	6
- Natural Premium	6	6	26
- Natural	4	4	21

The total annual cost for these locations, which include our parks and streetscapes is \$3,142,945 for basic mowing and horticulture. Please note that these figures do not include all traffic treatments, facility surrounds, sporting surfaces, bushland reserves, fire breaks, access tracks, roadside slashing and any other locations managed by Council, nor do they include locations managed by committees.

The detailed breakdown of standards currently applied to each park within the Shire are in the attached spreadsheet. The table below shows the number of locations for each standard, and the summary of how that will change for two different maintenace options.

Service Level	No of sites Currently	No of sites if "Urban" standard adopted	No of sites if "Parkland" standard adopted
Urban	32	777	0

Parkland	745	17	777
Streetscape Premium	17	6	17
Streetscape	6	0	6
Natural Premium	26	26	26
Natural 21		21	21
Total Cost	Total Cost \$3,142,945		\$3,087,101 (saving of \$55,843)

The current service is delivered by Citywide Service Solutions, as the successful tenderer of Contract 19-01 and as awarded by council in November 2019. Current maintenance standards were assessed from existing levels and from the external benchmarking organisation ParkScape, who were engaged by Council to undertake a community survey of our parks. The survey was undertaken between November 2017 - January 2018.

Background

This report has been prepared to provide Council an opportunity to assess current levels of service across Council's reserves.

The current service is delivered by Citywide Service Solutions, as the successful tenderer of Contract 19-01 as awarded by Council in November 2019.

In the preparation for the tender process for this contract a benchmarking survey was completed by external specialists ParkScape, who were engaged by Council to undertake a community survey of our parks. The survey was undertaken between November 2017 - January 2018. The key outcome from this survey was that the existing service standards were reasonable, in keeping with other Councils, and represented a good balance between affordability and service level.

The recommendation that those service levels be retained, along with the survey results were presented to both SLT and Council in the lead up to the award of the current Citywide contract. That report is attached. It is important to note that the majority of locations around the Shire where this survey was conducted were being serviced at the "normal" parkland standard (see below), which broadly also supports its adequacy.

Council's open space assets are maintained under different six service levels based on type of asset, profile, and history. The Table below shows the servicing levels per annum along with the number of sites currently managed at that service standard. Some larger sites may have different service levels within the one site reflecting different uses, and the table only reflects the highest standard used in these locations. The actual interval between services are adjusted in line with the season and the need, e.g. during late autumn/winter under the "Parkland" service a site will be visited on a four-weekly basis, during spring/early summer however this would move to a two-weekly rotation to account for higher grass growth rates.

Service Level	Garden Bed	Mowing	No of locations
- Urban	26	26	32
- Parkland	15	18	745
- Streetscape Premium	12	12	17

- Streetscape	10	10	6
- Natural Premium	6	6	26
- Natural	4	4	21

Policy Implications

The current contract and open space maintenance is aligned with Council's Liveability Plan, Open Space Management Framework, Recreational Open Space Strategy, Sustainable Environment Strategy and the Road Management Plan

Relevance to Council Plan

2.1 We support the creation of liveable spaces and places

- 2.1.1 Advocate, plan for and deliver accessible community infrastructure and services that address community need.
- 2.1.2 Plan and maintain safe, inclusive and connected open spaces, places and active travel routes.

5.1 We practise responsible leadership

5.1.4 Maximise value for our community through efficient service delivery, innovation, strategic partnerships and advocacy.

Climate Emergency Consideration

Increasing the service standard would not only increase overall costs but would also increase greenhouse emissions from increase plant operational time.

Consultation/Communication

Scape Data an external benchmarking organisation were engaged by Council to undertake a community survey in relation to the performance of our parks and current service levels.

The survey process included 200 interviews across 21 different parks around the Shire, at different times of the day and on different days to attempt to get a representative sample. Results indicated that thirty six percent of participants regularly visited other parks in the Shire of Cardinia area and overall satisfaction with Shire of Cardinia parklands was 7.9. (Cardinia 7.9, Mean 8.1, Range 7.6 - 8.5).

The survey results for satisfaction with maintenance led to an overall score of 7.7. (Cardinia 7.7, Mean 7.9, Range 7.5 - 8.3). The survey indicates the community is generally happy with the current maintenance standards, with the scores for Cardinia slightly lower than the average for other participating councils in our region. This indicates that we are achieving a good balance between cost and providing an acceptable level of service with current standards. The tender was prepared based on maintaining current service levels.

Financial and Resource Implications

Maintaining the status quo will have no financial or budgetary impact. The total financial impact of changing service levels identified above, is shown in the executive summary.

Conclusion

Current servicing levels have proven successful throughout our parks and reserves for several years. These standards meet Council's responsibilities and provide a balance between the community's needs and expectations and Council's ability to fund the maintenance programs.

Introduction to Scape Data

Scape data is a suite of research products which provide robust information for planners and managers about the use of public outdoor spaces.

Operating as an invaluable conduit between the users of public spaces, and the planners, designers and managers, **Scape data** obtains pertinent information to assist in the planning and management of quality community spaces.

A major key to the success of **Scape data**, is the pivotal linkage of a multi-disciplinary approach (planning, design, management), a thorough knowledge of community aspirations, and the integration of contemporary research.

Scape data is an evolution of Integrated Open Space Services (IOSS) User Survey Programs in operation since 1998. **Scape data** is the product of regular review, adaptation and technological upgrades.

Scape data operates across the broad spectrum of public outdoor spaces. The spectrum is divided into several categories, with each product offered separately, including:

ParkScape: urban parks

StreetScape : outdoor shopping centres

BushScape: conservation areas

Scape data obtains user data via:

User intercept (face-to-face) surveys

Surveys within each category are undertaken in regions on a regular basis.

About ParkScape

Commencing in 1998 as the Benchmark Park User Satisfaction Survey program, **ParkScape** has undertaken over 75,000 park user interviews around Australia - iconic, regional, district, neighbourhood (local), conservation, botanic gardens, passive/active parks.

Over 100 Government Authorities have been involved.

Information obtained includes park visitation, park access, satisfaction with park maintenance and provision of facilities/services, park experience, and user profiles.

Trend data and data relating to topical issues are also provided.

ParkScape:

- Informs open space, recreational and asset strategic planning and management.
- Informs park master and management planning.
- Tracks trend data.
- Provides information about park users and park usage.
- Provides information relating to topical issues, such as mode of transport, inter-relationship between dwelling type and use of public open space.
- # Tracks changes in park usage due to changing urban environments.
- Tracks changes in accessibility and modes of transport due to societal changes.
- Provides valuable research regarding the use of public open spaces and developing trends.
- Obtains park user's requirements for facility and service provision.
- # Identifies specific maintenance and facility provision issues.
- Measures park user's satisfaction with the level of park maintenance.
- Monitors specific maintenance regimes.
- Assists in determining maintenance specifications that align with park user requirements.
- Assists in integrating park user satisfaction with operational performance.
- Assists in developing in-house performance indicators for landscape facility maintenance.
- Provides quantifiable justification for resource allocation for current levels of facility and maintenance provision, and lobbying of further resources.
- Provides a confidential means for comparison of results on an intra-regional and inter-regional basis.

Further details about the program can be found in the Appendix.

Summary of Key Findings

Park Survey Data

200 park user intercept interviews were conducted in 21 parks during November and December 2017 within the Shire of Cardinia area.

Community Audit

Satisfaction with Authority Parklands

36% of participants regularly visited other parks in the Shire of Cardinia area. Overall satisfaction with Shire of Cardinia parklands was 7.9.

Satisfaction with Park

Participants' satisfaction with all aspects of the park they were interviewed in was 8.1.

Satisfaction with Maintenance

The overall mean score for satisfaction with the level of maintenance in the park was 7.7.

Provision / Improvement of Facilities and Services

Potable Water, Shade & Shelter, Playgrounds, Seats / Tables, and Amenity Blocks recorded the most comments for improvement or provision.

Perception of Safety

97% of participants felt that the park was safe to visit during the daytime; 35% felt that the park was safe to visit during the night.

The majority of comments relating to improving the perception of safety involved lighting.

Community Profile

Frequency of Visitation

26% visited the park a few days a week, 23% visited daily, and 18% were visiting the park for the first time.

Length of Stay

40% visited the park for half to one hour, and 28% visited for less than half an hour.

Reasons for Visiting

57% were visiting the park for Active Health & Well-being Activities, 19% for Passive Health & Well-being Activities, 10% for Social / Dining Activities, 10% for Access Activities, 2% for Vocational Activities, 0.3% for Community Activities, and 2% for Other Activities.

Group Size

31% visited the park with another person, 29% visited in a group of 3-5 people, and 27% visited by themselves.

Group Profile

51% of pairs/groups were adults and children, and 16% of pairs/groups were all adults.

Initial Knowledge

58% first came to know of the park due to local knowledge.

Transport Mode

52% travelled to the park by Private Motorised Transport, 39% by Non-Motorised Transport, and 10% by Public Transport.

Selection of Transport Mode

Distance (36% responses), convenience (12%), on the way to/from somewhere (11%), and good walkability (10%) were the main reasons for selecting mode of transport to the park.

Median Distance Travelled

The median distance travelled to the park was 3.0 km.

Median Travel Time

The median time taken to travel to the park was 10 minutes.

Place of Residence

68% lived within the local area.

Dwelling and Private Outdoor Space

85% lived or were staying in a dwelling with a private backyard.

Age

29% of participants were aged between thirty and thirty-nine, and 20% between forty and forty-nine years.

Gender

49% of participants were females and 51% were males.

November 2017 – January 2018

Park Survey Data

200 park user intercept interviews were conducted in 21 parks within the Shire of Cardinia area during November and December 2017.

67% of interviews were undertaken on a weekend, and 33% were undertaken on a weekday.

Table 1. Interviews – Shire of Cardinia

November 2017 – January 2018

Community Audit

1. Satisfaction with Authority Parklands

36% of participants regularly visited other parks in the Shire of Cardinia area and were invited to rate the satisfaction with Council's parklands overall.

Overall satisfaction with Shire of Cardinia parklands was 7.9.

Table 2. Satisfaction with Authority Parklands

SoC Mean Score	Region Mean Score	Region Highest Mean Score
7.9	8.1	8.5

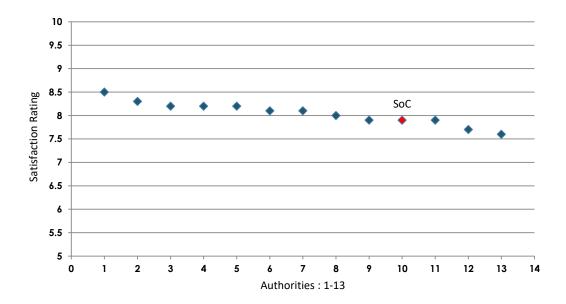

Figure 1. Satisfaction with Authority Parklands

November 2017 – January 2018

Participants were invited to comment on their rating with the satisfaction of Council parklands overall.

Table 3. Satisfaction with Authority's Parklands Comments - Shire of Cardinia

Park	Comments	
Alma Treloar Reserve	(No comments)	
Arena Park	Need dog waste bins in parks.	
Bourke Park	(No comments)	
Bunyip Recreation Reserve	(No comments)	
Cardinia Recreation Reserve	(No comments)	
Cochrane Park	(No comments)	
Dick Jones Park	(No comments)	
Don Jackson Reserve	(No comments)	
Eastone Reserve	(No comments)	
Emerald Lake Park	(No comments)	
Garfield Recreation Reserve	Could be much better, like Dandenong. Not well kept, grass is too long.	
Holm Park Recreation Reserve	(No comments)	
JAC Russell Park	(No comments)	
Keith Ewenson Park	Need more shelter and shade.	
Koolangarra Park	(No comments)	
Lakeside Park	(No comments)	
Mt Cannibal Flora and Fauna Reserve	(No comments)	
O'Neil Rd Reserve	Need bins in the park near Florence Tce. Parks need toilets.	
Onyx Cr Reserve	Need more play equipment in parks. Not enough parks in this area.	
Puffing Billy Place Reserve	Parks should be used to draw people with innovative ideas and playground equipment.	
Windermere Park	(No comments)	

November 2017 – January 2018

2. Satisfaction with Park

Participants' satisfaction with all aspects of the park they were interviewed in was 8.1; compared with 7.9 for the overall satisfaction of Shire of Cardinia parklands.

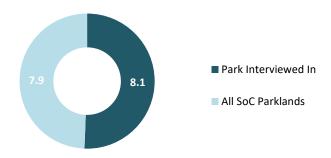

Figure 2. Satisfaction with Authority Parklands and Individual Parks - Shire of Cardinia

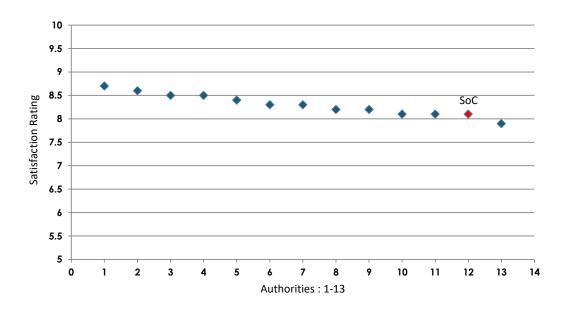

Figure 3. Satisfaction with Park Interviewed In

3. Satisfaction with Maintenance

The overall mean score for satisfaction with the level of maintenance in the park participants were interviewed in, within the Shire of Cardinia area was 7.7.

Table 9. Provision / Improvement of Facilities & Services – Shire of Cardinia's Parks

Park	Category	Provision / Improvement
Alma Treloar Reserve	SHADE & SHELTER	Provide shade over the playground x 6 Provide more shade
	SEATS / TABLES	Install more seats and tables x 2 Install more seats near the playground x 2 Install more tables
	POTABLE WATER	Install drinking fountains x 2 Install more taps
	AMENITY BLOCKS	Provide more toilets x 2
	BBQs	Install BBQs x 2
	FENCES / BARRIERS	Fence around the park especially for dogs Install more fences or barriers near walking trails
	ACCESS	Build more footpaths leading to the park
	FOOD & BEVERAGE OUTLETS	Open a café nearby
	FORESHORE MANAGEMENT	Improve land management around the creek
	LIGHTING	Improve lighting as the park is hidden from the road

Park	Category	Provision / Improvement
Arena Park	POTABLE WATER	Install drinking fountains x 5 Install a drinking fountain in the shelter
	PLAYGROUNDS	Maintain the bark under the playground to reduce trip hazards Make the purple beams on the playground safer for toddlers Install swings for teenage children
	BBQs	Install BBQs Install a BBQ in the shelter
	AMENITY BLOCKS	Provide toilets
	BINS	Provide more bins especially along the paths
	DOG FACILITIES & MANAGEMENT	Install more dog waste bag dispensers
	EXERCISE FACILITIES	Install outdoor exercise/gym equipment
	USER MANAGEMENT	Encourage dog owners to pick up after their dogs

Park	Category	Provision / Improvement
Bourke Park	PLAYGROUNDS	Install more play equipment Make the swings safer (not safe under)
	SHADE & SHELTER	Build more shelters on the grassed area Provide shade over the play equipment
	ACCESS	Provide more parking at the station side of the park
	FENCES / BARRIERS	Fence around the park
	GENERAL MAINTENANCE	Remove shopping trolleys from the park
	POTABLE WATER	Install more taps
	SEATS / TABLES	Install more seats
	SIGNS	Increase the height of the signs
	SOFT LANDSCAPE	Plant more trees in open space

Park	Category	Provision / Improvement
Bunyip Recreation Reserve	POTABLE WATER	Install more taps x 2 Install more drinking fountains Install more drinking fountains and make them visible Install drinking fountains near the Fire Brigade Track
	ACCESS	Fix the potholes in the carpark Improve road maintenance
	BINS	Provide more bins along the track Provide more bins near the tennis club
	DOG FACILITIES & MANAGEMENT	Provide a dog off-leash area Supply dog waste bags
	PLAYGROUNDS	Extend the playground Install more play equipment
	SHADE & SHELTER	Build more shelters Build more shelters near the tennis club, soccer area, and basketball court
	SPORT	Build another basketball court Improve soccer facilities
	EXERCISE FACILITIES	Install outdoor gym/exercise equipment like at Garfield
	LAND DRAINAGE	Improve land drainage near the entrance
	LIGHTING	Improve lighting to reduce glare - better for playing sport
	SIGNS	Install signs advising dog owners to pick up after their dogs
	SOFT LANDSCAPE	Replace dying trees

Park	Category	Provision / Improvement
Cardinia Recreation Reserve	SPORT	Improve the cricket nets x 2 Install new nets Check the safety of the new nets Improve the cricket pitch Build a new pitch
	POTABLE WATER	Install more drinking fountains x 2 Install a drinking fountain near the building Install more taps
	SEATS / TABLES	Install more seats Install more seats and tables around the playground Install a table under the shelter
	ACCESS	Remove the excess stones from the carpark
	CIRCULATION	Finish the footpath (quickly)
	FENCES / BARRIERS	Install new fences
	SOFT LANDSCAPE	Remove dead branches from trees to stop them falling

Park	Category	Provision / Improvement
Cochrane Park	DOG FACILITIES & MANAGEMENT	Provide a fenced off-leash dog area Install a dog water trough near the open field
	GENERAL MAINTENANCE	Fix the hole near the carpark (helicopter area) Clean the drains
	ACCESS	Provide a bigger carpark
	EXTREME RECREATION	Extend the skate park
	PLAYGROUNDS	Extend the playground
	POTABLE WATER	Install more taps
	SHADE & SHELTER	Build more shelters
	WILDLIFE CONSERVATION & MANAGEMENT	Address snake risk in summer

Park	Category	Provision / Improvement
Dick Jones Park	PLAYGROUIND	Improve the play equipment Install more play equipment suitable for younger children/toddlers Install play equipment suitable for under 2 year olds
	AMENITY BLOCKS	Upgrade the old toilets

Park	Category	Provision / Improvement
Don Jackson Reserve	SEATS / TABLES	Install more seats x 3 Install more seats and tables Install more seats under shade
	POTABLE WATER	Install more drinking fountains x 2 Install a drinking fountain (with dog bowl) near the playground
	CIRCULATION	Build a path from the carpark to the playground
	GENERAL MAINTENANCE	Clean up dog poo
	LAND DRAINAGE	Improve land drainage
	LIGHTING	Install more lighting
	SAFETY & SECURITY	Install CCTV cameras

Park	Category	Provision / Improvement
Eastone Reserve	ACCESS	Build a carpark x 2
	AMENITY BLOCKS	Provide toilets x 2
	BBQs	Install more BBQs Install another BBQ opposite the other one
	DOG FACILITIES & MANAGEMENT	Provide off-leash dog area x 2
	POTABLE WATER	Install more taps Install drinking fountains near the BBQ
	BINS	Provide more bins
	FENCES / BARRIERS	Fence the entire lake with a coloured fence to increase the beauty of the lake area
	PLAYGROUNDS	Build a playground
	SEATS / TABLES	Install more seats along the pathways
	SHADE & SHELTER	Build shelters over seats

Park	Category	Provision / Improvement
Emerald Lake Park	FOOD & BEVERAGE OUTLETS	Offer better food at the café Offer more variety of food options at the café Offer healthier food options at the café and provide reusable utensils Upgrade the café
	AMENITY BLOCKS	Upgrade and clean the toilets x 2 Provide more toilets Provide more accessible toilets for the elderly
	BBQs	Install more BBQs Install more BBQs near playground Provide bigger BBQ cooking plates Hire out utensils and provide essential ingredients for BBQs e.g. oil, lemons etc.
	PLAYGROUNDS	Install more play equipment Install more play equipment suitable for over 5/6 years Install monkey bars Fix the surface under the playground
	SEATS / TABLES	Install more seats Install seats with backs around the lake Provide hammocks in the grassed area
	POTABLE WATER	Install drinking fountains along the walking paths Install drinking fountains near BBQs
	PUBLIC SERVICES	Provide access to ATMs in the park x 2
	ACCESS	Provide free parking
	ANIMAL MANAGEMENT	Keep animals in the grassed area
	AQUATIC ACTIVITIES	Clean the pool more often
	BINS	Empty the bins more often
	GENERAL MAINTENANCE	Improve the cleanliness of the park
	SHADE & SHELTER	Provide more shelter over seats and tables near the lake
	SIGNS	Install more signs providing history and directions

Park	Category	Provision / Improvement
Garfield Recreation Reserve	AMENITY BLOCKS	Unlock the toilets x 2 Unlock the toilets during the day Keep the toilets unlocked more often (currently only open during cricket season) Provide toilets near the playground Improve toilet maintenance
	POTABLE WATER	Install more drinking fountains Install more taps Install more taps near play areas
	SHADE & SHELTER	Provide more shelter Provide more shade near the playground Install shade sails over the skate park
	EXTREME RECREATION	Extend the skate park Improve the skate park
	SEATS / TABLES	Install more seats Install more seats near the playground
	BBQs	Install a BBQ near the skate park
	CIRCULATION	Create more walking paths
	FENCES / BARRIERS	Fix the fences around the skate park
	LAND DRAINAGE	Improve land drainage around the spectators area
	SOFT LANDSCAPE	Plant more trees around the skate park

November 2017 – January 2018

Park	Category	Provision / Improvement
Holm Park Recreation	SHADE & SHELTER	Build more shelters around the ovals x 2 Build more shelters near oval 3 x 2
Reserve	AMENITY BLOCKS	Provide toilets closer to the ovals Provide access to toilets near oval 3
	LAND DRAINAGE	Improve land drainage at oval 3 x 2
	SIGNS	Install more warning signs Install signs to the toilets
	ACCESS	Install a children's' crossing from the club building to oval 3
	BINS	Provide more bins
	CIRCULATION	Create more pathways to ovals
	GENERAL MAINTENANCE	Level the ground near the cricket nets in oval 3
	POTABLE WATER	Install drinking fountains near the skate park
	SEATS / TABLES	Install seats around the ovals

Park	Category	Provision / Improvement
JAC Russell Park	BINS	Provide more bins x 2 Make the bins more visible x 2
	ACCESS	Provide proper parking facilities
	CIRCULATION	Replace the gravel on the paths with another surface to stop stones going into shoes
	GENERAL MAINTENANCE	Clean the park more often
	PLAYGROUNDS	Install swings
	POTABLE WATER	Install taps
	SEATS / TABLES	Install more seats

Park	Category	Provision / Improvement
Keith Ewenson Park	SHADE & SHELTER	Build a shelter where the rotunda used to be Provide a shelter or sunshade over the play equipment Provide shade over the BBQ area
	AMENITY BLOCKS	Provide toilets x 2
	BBQs	Install more BBQs Update the BBQ
	BINS	Provide 2 more bins - one near the BBQ and the other near the table
	DOG FACILITIES & MANAGEMENT	Provide dog waste bins
	GENERAL MAINTENANCE	Fix the holes in the ground to the side of the ELC (kids fall over in these holes)
	PLAYGROUNDS	Update the playground
	SEATS / TABLES	Install seats near the playground
	SOFT LANDSCAPE	Mow the grass more often

November 2017 – January 2018

Park	Category	Provision / Improvement
Koolangarra Park	AMENITY BLOCKS	Provide toilets Provide toilets near the playground
	BBQs	Install another BBQ under shelter
	FENCES / BARRIERS	Install fences
	GENERAL MAINTENANCE	Clean up glass near the shelter
	LIGHTING	Install lighting in the shelter
	PLAYGROUNDS	Lay more bark chips in the playground
	SHADE & SHELTER	Provide shade over the playground
	SOFT LANDSCAPE	Mow the grass more often

Park	Category	Provision / Improvement
Lakeside Park	BINS	Provide more bins especially along the path x 2 Provide more bins around the lake Provide more bins
	SIGNS	Install more signs re: littering Install more signs advising dog owners to pick up after their dogs Install signs advising what can and cannot be done in the park/lake
	CIRCULATION	Fix the damaged path near the taps Lay 'chicken' wire along the boardwalk to prevent slipping
	SHADE & SHELTER	Build more shelters Build more shelters especially along the side of the park where the houses are
	WATERBODIES / WATERWAYS	Clean the lake more often Do not allow fishing in the lake
	ACCESS	Provide more parking near the Cultural Centre
	GENERAL MAINTENANCE	Clean up dog poo off the grass/ground
	POTABLE WATER	Install more drinking fountains
	SOFT LANDSCAPE	Build a basketball court
	SPORT	Plant more trees along the path

Park	Category	Provision / Improvement
Mt Cannibal Flora and Fauna	CIRCULATION	Maintain the tracks more often Make the path safer - water is washing it away
Reserve	AMENITY BLOCKS	Improve the toilets Upgrade the toilets
	GENERAL LANDSCAPE	Keep the park as natural as possible Preserve the bush
	SIGNS	Make the signs easier to understand Install signs advising the level of difficulty of the walking tracks and to carry water and walking sticks
	SEATS / TABLES	Install more seats in the playground area

Park	Category	Provision / Improvement
O'Neil Rd Reserve	BINS	Provide more bins x 2 Provide a bin near the playground
	SEATS / TABLES	Install more seats near the playground x 2 Install more seats
	SHADE & SHELTER	Build shelters x 2 Provide shade over the playground
	CIRCULATION	Create a path through the park Create a path to the playground
	POTABLE WATER	Install a drinking fountain near the basketball court Install drinking fountains near the playground
	AMENITY BLOCKS	Fence the entire park
	FENCES / BARRIERS	Provide toilets near the playground
	SPORT	Install nets on basketball rings

Park	Category	Provision / Improvement	
Onyx Cr Reserve	BINS	Provide more bins Provide more bins along pathways Provide a bin near the shelter Provide another bin near the playground area	
	PLAYGROUNDS	Install more play equipment x 2 Make the big mountain with the slide safer for children x 2	
	DOG FACILITIES & MANAGEMENT	Install more dog waste bag dispensers Install some dog agility equipment Make the dog park area like Casey's	
	BBQs	Install a BBQ under the shelter x 2	
	FENCES / BARRIERS	Fence around the playground Install a double gate at the dog park area	
	SOFT LANDSCAPE	Clean up fallen leaves Plant more trees	
	AMENITY BLOCKS	Provide toilets near the playground (in the open area not the dog park area close to Onyx Cres)	
	LAND DRAINAGE	Improve land drainage between the dog off-leash area and the shelter	
	POTABLE WATER	Install a drinking fountain in the dog park area	
	SEATS / TABLES	Clean the seats under the shelter	

November 2017 – January 2018

Park	Category	Provision / Improvement	
Puffing Billy Place Reserve	AMENITY BLOCKS	Clean the toilets more often x 3 Extend the toilets Upgrade the toilets	
	PLAYGROUNDS	Install more play equipment Install new play equipment Make the playground more innovative Maintain the play equipment	
	SHADE & SHELTER	Build more shelters in the open area near the tracks Build more shelters near the playground Provide shade over play equipment	
	BINS	Provide bins near the shelters Improve the appearance of the bins	
	POTABLE WATER	Install a drinking fountain near the playground Install drinking fountains in the BBQ area and corners of the park	
	SEATS / TABLES	Install more seats and tables undercover Install a table under the big shelter	
	BBQs	Make the BBQ area bigger and install more BBQs	
	CIRCULATION	Make the pathways more even especially for disabled people	
	FENCES / BARRIERS	Install more fences and gates around the park	
	OVERALL PARK	Make the park more child-friendly	

Park	Category	Provision / Improvement	
Windermere Park	POTABLE WATER	Install drinking fountains x 4 Install a tap at the playground	
	PLAYGROUNDS	Install more play equipment Install more play equipment near the BBQ area Fix the surface under the swing	
	GENERAL MAINTENANCE	Improve park maintenance/cleaning Improve litter removal near the playground area	
	SEATS / TABLES	Install more seats Install more seats in the open field	
	BINS	Provide a bin near the playground	
	SHADE & SHELTER	Provide more shade over swings	
	SOFT LANDSCAPE	Plant more trees	
	SPORT	Build a basketball court or soccer field	

5. Perception of Safety

97% of participants in the Shire of Cardinia area felt that the park was safe to visit during the daytime.

35% of participants felt that the park was safe to visit during the night.

Table 10. Perception of Safety – Shire of Cardinia

Response	Day n = 200	Night n = 200
Safe	97%	35%
Not Safe	2%	17%
Unsure	2%	49%

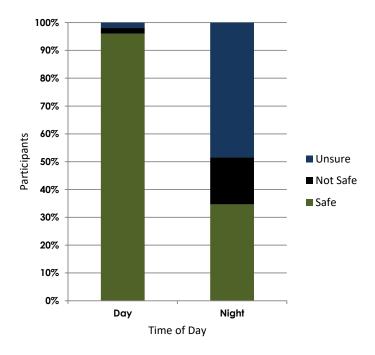

Figure 6. Perception of Safety – Shire of Cardinia

November 2017 – January 2018

The majority of comments relating to improving the perception of safety within the Shire of Cardinia parks involved lighting.

Table 11. Improving Perception of Safety – Shire of Cardinia

6. General Comments

Table 12. General Comments – Shire of Cardinia

Park	Comments	Comments
Alma Treloar Reserve	Good park. x 4 Lovely park. Nice park. Things for everyone, love the new park.	
Arena Park	Good park. x 6 Well maintained.	
Bourke Park	(No comments)	
Bunyip Recreation Reserve	Good park.	
Cardinia Recreation Reserve	Best park. All good, best around Good for the community.	
Cochrane Park	Good, perfect, maintenance is very good. Kids like it.	
Dick Jones Park	(No comments)	
Don Jackson Reserve	Love this park. x 2 Nice park. I come here daily.	
Eastone Reserve	Very pleasant to be here.	
Emerald Lake Park	Beautiful park. Like the \$10 yearly parking ticket and the late opening of the park.	
Garfield Recreation Reserve	Good park. x 2 Very happy with it. We have everything that we want and what we need for a party.	
Holm Park Recreation Reserve		Sporting clubs have to clean this park.
JAC Russell Park	Beautiful park. x 2 Lovely, nice. Like that it is shady. Love Puffing Billy and the park. Love the BBQ facility.	
Keith Ewenson Park		A little unused park.
Koolangarra Park	It's fine. Pretty good.	
Lakeside Park	(No comments)	
Mt Cannibal Flora and Fauna Reserve	Pretty unique environment. Seems as per expectation.	
O'Neil Rd Reserve	I'll come back here.	Need a swimming pool in the Beaconsfield area.
Onyx Cr Reserve	Good park. Great park, love it. Okay park.	
Puffing Billy Place Reserve		This park should be maintained well as it attracts tourists.
Windermere Park	Satisfied with the park, x 4 Beautiful park.	

November 2017 - January 2018

Community Profile

1. Park Usage

1.1 Frequency of Visitation

In the Shire of Cardinia area, 26% of participants visited the park a few days a week, 23% visited daily, and 18% were visiting the park for the first time.

Frequency of Visitation	SoC n = 200	Region n = 1,317
Daily	23%	26%

Appendix - Introduction to ParkScape

Methodology

ParkScape involves conducting a generic park user intercept survey in parks and reserves within participating Government Authorities. ParkScape is conducted regularly within a region, with many regions participating annually. Supplementary questions can be included as Authorities require.

Range of Park Users

Park users are chosen at random in proportion to the range of activities being undertaken within the parkland. Some active users, such as cyclists, joggers or those playing sport, are difficult to interview and therefore may be under represented in the user sample. The proportional range of activities should, therefore, be reviewed in conjunction with park user observation studies.

Parkland Categories

The survey process involves conducting park user intercept interviews within parklands of a nominated category or mix of categories. Individual parks are chosen by each Authority which are representative of the category of parks being surveyed in that region.

The parklands are divided into categories based on level of amenity, level and type of infrastructure, usage levels, usage types and user catchment. Park user interviews within a region are conducted within a single category or a combination of categories, depending on the requirements of the local park managers within the region. The parkland categories are:

• Iconic Parklands

Highly developed parkland that fulfils a very significant role in recreational and tourism amenity.

• Botanic Gardens

Areas which set aside for the preservation of plant varieties, plant education and botanical research.

• Passive High Profile Parklands (Passive Regional Parklands)

Developed parklands that offer a high level of amenity (either facilities or natural attraction), have high usage levels and attract a significant proportion of users from outside the immediate area.

Passive Low & Medium Profile Parklands (Passive Local & District Parklands)

Developed parklands that offer a low / medium level of amenity (either facilities or natural attraction), have low / medium usage levels and primarily attract users within the immediate area / adjoining areas.

• Active High Profile Parklands (Active Regional Parklands)

Developed parklands that are predominantly designated sporting areas, offer a high level of facilities (either number, quality or type), have high usage levels and attract a significant proportion of users from outside the immediate area.

• Active Medium Profile Parklands (Active District Parklands)

Developed parklands that are predominantly designated sporting areas, offer a medium level of facilities (either number, quality or type) and have medium usage levels.

• Conservation Parklands

Natural areas that are set aside for environmental conservation and recreation.

November 2017 - January 2018

Timing of Interviews

Interviews are conducted during the range of park usage times - from dawn to dusk; weekdays and weekends - with the majority of interviews conducted during peak usage times to reflect actual park usage.

Collection of Data

In collecting data, the following important objectives are pursued:

- Ensuring maximum park user participant rates in the survey, through the utilisation of a user-friendly survey, survey techniques, and interviewers. Participation rates are generally 80% or higher.
- Data accuracy and integrity, through interviewer training, field supervision and survey audits.
- **\$** Data which is reflective of actual park usage (ie times and activities).

All interviewers employed by IOSS undergo specific park user intercept interview training prior to field work and are fully supervised once in the field. On-site induction is also undertaken for each Authority. All interview questionnaires are fully audited by experienced supervisors for accuracy and integrity of data. Interviewers are chosen on the basis of personal presentation, oral communication skills, written communication skills, inter-personal skills, ability to work independently, confidence, enthusiasm, personal motivation, interest in the work being undertaken, education, and comparable/relevant work experience. IOSS utilises multi-lingual staff in areas with a high proportion of park users from non-English speaking backgrounds.

Confidence in Using the Survey Data

Confidence levels can be used to determine the reliability of survey results in relation to the expected responses from a total population. The confidence intervals either side of an average score can be calculated when the sample size and standard deviation are known. The sample size needs to be large enough to demonstrate a satisfactory interval of confidence. For example, in a program of 60 surveys, the range of confidence levels for the various mean scores is likely to be:

- +/- 3% to 10%, at a 95% confidence level: for Individual Authority Mean Scores on Individual Maintenance Elements (confidence levels do not fall within this range when there is less than 20 responses for an element).
- +/- 1% to 7%, at a 95% confidence level:
 for Regional Mean Scores on Individual Maintenance Elements.
- < +/- 2%, at a 95% confidence level: for Individual Authority Overall Mean Score & Regional Overall Mean Score.

Statistically, 60 survey participants per Authority give a minimal measure of confidence in the results. However, utilizing a larger sample size per Authority understandably strengthens confidence levels.

Data

The survey is designed to be flexible and provide relevant and useful information to park planners and managers. Consequently, the format and content of the questionnaire is under constant review, with survey questions added or deleted based on feedback from park managers and planners. The following data is obtained from survey participants regarding the park in which they are interviewed:

November 2017 – January 2018

COMMUNITY AUDIT

- Satisfaction with Authority parklands.
- Satisfaction with the park overall.
- \$\text{Satisfaction with standard of maintenance of 24 park elements.}
- Requirements regarding provision of facilities and services within the park.
- Perception of safety within the park.
- General comments.

COMMUNITY PROFILE

Park Usage

- Frequency of park visitation.
- Length of park visit.
- Reasons for visiting the park.
- # Group size.
- Group profile.

Park Access

- Mode of transport to the park.
- Reasons for mode of travel.
- Distance travelled to reach the park.
- # Time taken to travel to the park.

Demographics

- Location of residence.
- Type of dwelling and outdoor space.
- Age of survey participant.
- Gender of survey participant.

Participating Authorities also have the option to add further questions to the base survey questionnaire for use within their jurisdiction.

Note on Report Usage

The information in the survey report is presented to assist park planners and managers in aligning their strategies with users' requirements. It is not recommended as a sole source for strategic decision-making, or for showcase purposes.

Participating Authorities

Since 1997, the Program has involved 100 Local and State Government Authorities and approximately 70,000 park user intercept interviews.
